

## CLOSING OF CEDAR ROAD IN THE DISTRICT OF COLUMBIA.

---

JANUARY 28, 1921.—Referred to the House Calendar and ordered to be printed.

---

Mr. ZIHLMAN, from the Committee on the District of Columbia,  
submitted the following

### REPORT.

[To accompany H. R. 13847.]

The Committee on the District of Columbia recommends the passage of H. R. 13847, which authorizes the Commissioners of the District of Columbia to close Cedar Road between Quincy Street and Shepherd Street, northwest, in the District of Columbia.

Under date of May 6, 1920, the commissioners addressed letters to the chairmen of the House and Senate committees on the District of Columbia, authorizing the closing of certain streets, roads, or highways in the District rendered useless by reason of the opening extension, widening or straightening of other streets, roads, or highways in accordance with the highway plan, among which streets and roads recommended closed was Cedar Road, north of Spring Road.

The records of the surveyor's office show this road to be a private road and that it runs in a diagonal direction contrary to the highway plan, and does not lend itself to the proper subdivision and development of the land, and in addition the road is above the grade of the streets already established which would make its improvement impossible if not expensive.

The closing of the road will permit of a resubdivision which will be to the advantage of the property owners with no loss to the public.
